Executive summary

ILLUSTRATIVE DATA: This report is a constructed example, not a real investigation of example.com. All observations, priorities and evidence are examples. No live timing or performance measurements were collected; zero counts and duration below are placeholders for this sample.

GOAL

Help a visitor understand available plans. Example scope: one pricing page document. Interactive checkout was not tested.

PAGES	FINDINGS	LCP	DURATION
1	1	N/A	0.0s

Findings (1)

MEDIUM | Accessibility | OBSERVED CHECK; FIX NOT VERIFIED

1. Main heading structure is unclear

Affected URLs: https://example.com/pricing
Expected: The pricing page has one descriptive main heading so visitors can identify its purpose.
Observed: The example document contains two H1 headings: 'Our plans' and 'Get started'.
Recommended next action: Keep 'Our plans' as the page H1. Use an H2 for 'Get started', then recheck the document heading outline.
Verification: Targeted verification unavailable
Evidence: https://example.com/pricing - Illustrative HTML evidence: <h1>Our plans</h1> ... <h1>Get started</h1>. H1 count: 2. This constructed example was not collected from example.com.
